

ACTUAL PRODUCTION HISTORY HEMP COVERAGE

Farmers Mutual Hail offers federal Hemp Actual Production History (APH) coverage through the USDA Risk Management Agency (RMA) insurance program. Learn more about what this product covers, where it's offered, eligibility requirements as well as coverage levels.

HEMP APH COVERAGE

Hemp Actual Production History (APH) insurance covers loss of production from:

- > Adverse weather conditions
- > Earthquake
- > Fire
- > Volcanic eruption
- > Insects and plant disease
- > Failure of irrigation water supply if due to any of these causes
- > Wildlife

APH yield is calculated by averaging the amount of hemp in dry pounds.

COVERAGE AVAILABILITY

Hemp APH coverage from FMH is available in select states for the following hemp types*:

FIBER

GRAIN

CANNABIDIOL
(CBD)

Coverage is available for producers in certain counties in states including AL, AR, AZ, CA, CO, IL, IN, KS, KY, ME, MI, MN, MO, MT, NM, NV, NY, NC, ND, OK, OR, PA, SD, TN, TX, VA, and WI.

**Not all hemp types are available in certain areas, please check with your FMH agent.*

PRODUCER ELIGIBILITY

Hemp producers must follow certain regulations for hemp production to be eligible for Hemp APH coverage.

Producers must have at least one year of history of producing the crop and have a processor contract for the sale of the insured crop.

Hemp coverage does not qualify for replant payments or prevented planting payments. See the Insured Crop section on the back for a more detailed requirements.

INSURED CROP

The producer must have a share in the hemp crop and at least a one year history of producing it to be insured.

INSURED HEMP IS REQUIRED TO BE:

- > A covered type
- > Grown under a processor contract fulfilled by the acreage reporting date
- > Grown under an official certification or license that permits production of the hemp
- > Planted for harvest as hemp in accordance with the processor contract and production management practices of the processor
- > Planted to an adapted variety and not a prohibited variety
- > Planted before the Final Planting Date
- > Planted to a minimum of 5 acres for CBD and 20 acres for grain and fiber
- > Planted on acreage meeting the rotation requirements

COVERAGE LEVELS & PREMIUM SUBSIDIES

Hemp APH coverage levels range from 50 to 75 percent. Premium shares are 100 percent minus the subsidy amount shown in the chart. The chart shows premium subsidy percentages for basic units.

Only one coverage level may be selected for each insured type in the county insured under this policy. Insureds must select the coverage level, by type, on their application by the sales closing date. Applications can be submitted by using the standard MPC1 application and change forms.

The Catastrophic Risk Protection Endorsement (CAT) limits coverage to 50 percent of your average yield and 55 percent of the price election. The cost for CAT coverage is an administrative fee of \$655, per crop, per county.

Coverage Level %	50	55	60	65	70	75
Premium Subsidy %	67	64	64	59	59	55
Your Premium Share %	33	36	36	41	41	45

INSURANCE UNITS

Basic, Optional, and Enterprise units are available in select hemp counties. Premium discounts apply for basic and enterprise units. Additional subsidy is available for enterprise units.

COVERAGE OPTIONS

You must buy crop insurance coverage under one of the insurance plans offered: Catastrophic Risk Protection or Actual Production History.

CLAIMS

If an insured experiences damage or loss, the crop agent must be notified within 72 hours after finding it and no later than 15 days after the insurance period.

Insureds are required to provide a copy of the certification form or official license for the current crop year for the insured county before completing the claim.

Before the crop can be inspected by the adjuster, the insured must protect the crop from being further damaged as much as possible and leave samples for each field of the damaged unit.

If insured acreage is damaged during the insurance period by an insured cause of loss, and the producer intends to harvest the acreage before the final THC level is determined, the producer must provide notice to FMH through their agent.

Note: Direct-seeded CBD Hemp is required to be inspected at planting time.
