

FMH QUICK PAY

To access Quick Pay scan the Quick Pay QR code on your billing statement or visit www.fmh.com/quickpay.

STEP 1

Enter your information listed on your bill.

- FMH Account Number
- Pay Code or Amount
- Zip Code

STEP 2

Enter your payment details and accept the Terms & Conditions.

- When selecting your payment amount, you can opt to pay by policy year, commodity, and partial or full payment.
- If you want to receive a payment receipt, please enter your email address. You can also print a confirmation receipt after you submit your payment.

STEP 3

Confirm your payment has been submitted.

Once your payment has been submitted, you'll see the Payment Success screen on Page 3 and options for making more payments or printing a confirmation receipt.

FOR BILLS ALREADY PAID

If you try entering information for an entity that has already been paid, you will see a banner that the account is paid in full and everything else on the page is greyed out other than the **Back** button. You will see this if the billing statement you are using was generated in the last 120 days.

Once a payment is made, an ACH Payment Confirmation document is uploaded to the Documents tab in the PHC for that entity.
