RULE 4 PREMIUM DETERMINATION - PERSONAL/FARM PERSONAL COVERAGES

4.1 Rating Basis

The rating basis shown for each classification described in Rule 5 is used to calculate the premium for the various Personal and Farm Personal Liability exposures.

When the rating basis is "receipts", the rate for the applicable classification applies per \$100 in gross receipts charged by the insured for the covered exposure.

4.2 Required Coverage

Coverage is required for the following exposures if they exist:

1. All residence premises of the named insured, including Seasonal or Secondary Residences and Residences Rented to Others. When more than four (4) rentals are owned, all are required to be rated under the Premises Only Liability Coverage.
2. All domestic employees of the named insured not covered or required to be covered by Workers' Compensation Insurance. A charge is required for domestic employees in excess of two (2).
3. All farm premises of the named insured.

4.3 Calculation of Premium

The premium is computed as follows:

4.3.1 Use Rule 5 to determine the classifications for all required and optional coverage.

Calculate the number of rating bases for each classification.

4.3.2 Use the Personal/Farm Personal Coverage Rate Pages to obtain the rates, at the appropriate limit, for the classifications determined in **4.3.1**

4.3.3 If applicable, add the charges for higher Medical Payments limits to the rates determined in 4.3.2.

4.3.4 Determine the applicable **Cloud Package Discount** factor. Refer to the Rate Pages.

4.3.5 Multiply the rates determined in **4.3.3** by the respective number of rating bases determined in **4.3.1**. Multiply that result by the applicable **Cloud Package Discount** factor. The sum of these products is the policy premium.

4.4 Minimum Premium

The total annual premium based on the sum of the final calculation shown for each classification, as described in Rule 4.3 above is subject to a \$90 Minimum Premium in this Personal and Farm Personal Liability program.

The exception to this Minimum Premium applies when both Property & Liability coverage are written as a package with an identical policy number, as described in Rule 3.1.2 and 3.2.2. In this case, the \$90 Minimum Premium applies to the total policy premium of both policies combined.
